US\$80/bbl WTI & US\$3.25/MMBtu HH	X	0.7x - 0.8x	0.3x - 0.6x

^{1 –} Production and cash operating costs include scheduled downtime to accommodate plant expansion work in the third quarter.
2 – Chicago sales of ~90% expected for 2023.
3 – Includes G&A expenses for all divisions of the Company – corporate, upstream, green energy (power & hydrogen) and business development.
4 – The Company expects to pay cash taxes of approximately \$0.3 million on its US subsidiary during 2023. No Canadian taxes are anticipated in 2023.
5 – Non-GAAP measure that does not have any standardized meaning under IFRS and therefore may not be comparable to similar measures presented by other entities. Please refer to the section "Non-GAAP Measures" within the Company's MD&A available at www.kiwetinohk.com for further information.

- 1 Certain comparative figures have been reclassified to conform with the current presentation.
- 2 Some rows and columns may not add due to rounding.
- 3 Non-GAAP and other financial measure that does not have any standardized meaning under IFRS and therefore may not be comparable to similar measures presented by other entities. See "Non-GAAP and Other Financial Measures" section of this document.
- 4 Realized loss on risk management contracts includes settlement of financial hedges on production and foreign exchange, with losses on contracts associated with purchases presented separately.
- 5 Oil and natural gas reserves are as determined by the Company's independent qualified reserve evaluator with an effective date of December 31 for the years shown in accordance with the Canadian Oil and Gas Evaluation Handbook and are shown as net working interest reserves before royalties.

Forward looking information

Certain information set forth in this document contains forward-looking information and statements including, without limitation, management's business strategy, management's assessment of future plans and operations. Such forward-looking statements or information are provided for the purpose of providing information about management's current expectations and plans relating to the future. Forward-looking statements or information typically contain statements with words such as "anticipate", "believe", "expect", "plan", "intend", "estimate", "project", "potential", "may" or similar words suggesting future outcomes or statements regarding future performance and outlook. Readers are cautioned that assumptions used in the preparation of such information may prove to be incorrect. Events or circumstances may cause actual results to differ materially from those predicted as a result of numerous known and unknown risks, uncertainties and other factors, many of which are beyond the control of the Company.

Please refer to the Corporation's recent 2023 MD&A under the section "Forward Looking Statements" for a description of certain assumptions and risk factors related to the forward looking information and statements included herein on page 1. The Corporation's recent MD&A is available on Kiwetinohk's SEDAR profile at www.sedar.com and Kiwetinohk's website at www.sedar.com and <a href="https://ww

Non-GAAP and Other Financial Measures

Non-GAAP Financial Measures, Non-GAAP Financial Ratios and Capital Management measures

This document uses various specified financial measures including "Non-GAAP financial measures", "Non-GAAP financial ratios" and "Capital Management measures", as defined in National Instrument 52-112 Non-GAAP and Other Financial Measures Disclosure. These non-GAAP and other financial measures presented in this document should not be considered in isolation or as a substitute for performance measures prepared in accordance with IFRS and should be read in conjunction with the Financial Statements. Readers are cautioned that these non-GAAP measures do not have any standardized meanings and should not be used to make comparisons between Kiwetinohk and other companies without also taking into account any differences in the method by which the calculations are prepared.

Please refer to the Corporation's MD&A for the periods referenced, under the section "Non-GAAP and other financial measures" for a description of these measures, the reason for their use and a reconciliation to their closest GAAP measure where applicable. The Corporation's MD&As are available on Kiwetinohk's SEDAR profile at www.sedar.com and Kiwetinohk's website at www.siwetinohk.com.

(Amounts stated in \$ thousands, except as noted)

Supplementary Financial Measures

This document contains supplementary financial measures expressed as: (i) cash from operating activities, adjusted funds flow and free cash flow on a per share – basic and per share – diluted basis and (ii) realized prices, petroleum and natural gas sales, adjusted funds flow, revenue, royalties, operating expenses, transportation, realized loss on risk management, and net commodity sales from purchases on a \$/Bbl, \$/Mcf or \$/Boe basis.

Cash from operating activities, adjusted funds flow and free cash flow on a per share – basic and diluted basis are calculated by dividing the cash from operating activities, adjusted funds flow or free cash flow, as applicable, over the referenced period by the weighted average basic or diluted shares outstanding during the period determined under IFRS.

Metrics presented on a \$/Bbl, \$/Mcf or \$/Boe basis are calculated by dividing the respective measure, as applicable, over the referenced period by the aggregate applicable units of production (Bbl, Mcf or Boe) during such period.

Oil and gas advisories

For the purpose of calculating unit costs, natural gas is converted to a barrel of oil equivalent using six thousand cubic feet of natural gas equal to one barrel of oil unless otherwise stated. The term barrel of oil equivalent (boe) may be misleading, particularly if used in isolation. A boe conversion ratio for gas of 6 Mcf:1 boe is based on an energy equivalency conversion method primarily applicable at the burner tip and does not represent a value equivalency at the wellhead.

This document includes references to sales volumes of "Oils and condensate", "NGLs" and "Natural gas" and revenues therefrom. National Instrument 51-101 Standards of Disclosure for Oil and Gas Activities, includes condensate within the NGLs product type. The Company has disclosed condensate as combined with crude oil and separately from other NGLs since the price of condensate as compared to other NGLs is currently significantly higher, and the Company believes that this crude oil and condensate presentation provides a more accurate description of its operations and results therefrom. Crude oil therefore refers to light oil, medium oil, tight oil, and condensate. NGLs refers to ethane, propane, butane, and pentane combined. Natural gas refers to conventional natural gas and shale gas combined.

Reserves Data

Reserves data set forth in this document is based upon an evaluation of the Company's reserves prepared by McDaniel & Associates Consultants Ltd. ("McDaniel") dated March 7, 2023 and effective December 31, 2022 (the "McDaniel Report"). The reserves referenced in this document are net working interest reserves before royalties. The price forecast used in the McDaniel Report is the three consultant average forecast prices of McDaniel & Associates Consultants Ltd., GLJ Ltd. and Sproule Associates Limited as of January 1, 2023 price forecast. The estimates of reserves contained in the McDaniel Report and referenced in this document are estimates only and there is no guarantee that the estimated reserves will be recovered. Actual reserves may be greater than or less than the estimates contained in the McDaniel Report and referenced in this document. There is no assurance that the forecast prices and costs assumptions used in the McDaniel Report will be attained, and variances could be material. Estimated future net revenue does not represent fair market value. Readers should refer to the Company's annual information form for the year ended December 31, 2022, available on Kiwetinohk's website at www.kiwetinohk.com and SEDAR at www.sedar.com, for a complete description of the McDaniel Report (including reserves by the specific product types of shale gas, conventional natural gas, NGLs, tight oil and light and medium crude oil) and the material assumptions, limitations and risk factors pertaining thereto.
